

## **QUALITY POLICY STATEMENT**

Suir Plant Ltd recognises the importance of Quality Control within the construction industry to ensure services are provided to the client's requirements, specifications and expectations. Suir Plant Ltd endeavours to ensure works are delivered in a quality manner at all times.

The quality of works are the responsibility of all Suir Plant Ltd personnel and subcontractors carrying out any works on behalf of Suir Plant Ltd. To incorporate this philosophy into the business culture, Suir plant Ltd establishes Quality Control at the tender stage of each project and diligently implements the Quality Management Systems throughout the contract period.

Suir Plant Ltd uses its extensive history and experience to constantly deliver quality services and products to all its clients and is committed to continually improving the effectiveness of the Quality Management System to ensure customer's satisfaction is maintained and any changing requirements in the industry are captured and incorporated into future management systems.

All personnel, including subcontractors are required to adopt and implement the quality principles to ensure an ongoing quality service to our customers.
